

Cogeco Peer 1 Powering Extraordinary Agility and Innovation.

Business-Optimized Platforms for the Unstoppable Business Era

Your information technology has never been more complex than it is today. Running legacy systems alongside mission critical apps, managing shadow IT while supporting rapid application development are all vying for the attention of the IT department. And with the Internet of Things and Digital Transformation taking effect, that complexity is set to increase.

Cogeco Peer 1 can free your business from intricate IT complexity and operational challenges. By hosting your critical IT systems at our state-of-the-art data centre facilities, migrating to a precisely tailored cloud solution, or choosing us to keep your systems and data backed up and ready to go should disaster strike, you can free your people, energy and resources to focus on what matters most—growth and innovation.

All this can only be achieved by developing real business intimacy. The powerful relationships we build with each and every customer are due to the passion and commitment of our people—all experts in their fields. They aren't an extension of your team. They become part of it, anticipating your daily challenges, collaborating with you from strategy to operations, core IT to the delivery of your customer facing apps.

By delivering technology platforms that are intelligently designed, perceptively optimized and wisely managed for your unique business and vertical market, your IT will drive innovation and agility, presenting you with extraordinary competitive advantage.

It is our compelling global presence, cutting-edge facilities, world-class expertise and market-defining SLAs that set us apart, giving you the freedom and scalability to make your business ambitions a rapid reality.

Cogeco Peer 1: Together delivering unstoppable IT for the unstoppable business era.

Application Optimized Cloud Platforms

The exponential power to innovate and grow.

Your challenge is to compete harder, grow faster and outpace market innovation. The right cloud strategy will generate powerful business advantage, but only if it performs to your applications' demands. Freeing you from IT complexity and helping you deliver always-on, supremely fast cloud infrastructures that enable innovation and agility are why we offer a comprehensive, expertly managed range of cutting-edge cloud solutions.

Our incredible choice of cloud platforms give you the freedom to break away from the crowd and design a platform that will make your applications unstoppable. Our people will always remain at hand to help you through your cloud journey and give you the edge you have been looking for.

Services

- Mission Critical Cloud
- Virtual Data Centre
- On Demand True Native Hybrid Cloud
- Managed Private Cloud

Hosting Optimized Platforms

Mind-bending speeds for online applications.

No matter how advanced your website, mobile app, online gaming or rich media site may be, it is irrelevant if your end users can't experience it the way you intended. With technology developing rapidly, so do the expectations of the millions who are plugged into these media intensive sites. The end goal is an entirely immersive experience—one uninterrupted by any latency or downtime caused by the infrastructure underpinning your application. That requires speed, reliability and pro-active hosting support. Achieving this in house can be complicated and cost prohibitive, and using the wrong hosting provider can be disastrous.

Our solutions provide you with the speed and reliability that even the most complex online applications demand.

Services

Managed Hosting Platforms (Managed)

- High Performance Computing—GPU Servers
- Pro Servers | Advanced Servers | Essential Servers | Storage Servers
- Internal Storage | Shared disk SAN | DAS | iSCSI DAS | Dedicated Disk SAN
- FastFiber Network | Anycast DNS
- Limelight CDN
- Quick Recovery Storage Backup
- Web Application Firewall
- Intrusion Detection (IDS)
- Load Balancers
- Business Class Email

eCommerce Optimized Platforms

Formidable Storefronts. Beautifully simple compliance.

You face significant challenges if you have an online business that sells goods or services on an eCommerce platform. A hosting platform that is PCI DSS compliant goes a long way to address these obstacles, which is why we offer compliant, turnkey hosting solutions that are honed to meet the most intense eCommerce requirements. We use proven, optimized and scalable infrastructure components to deliver unsurpassed performance and reliability. And it's all backed by an experienced team of professionals all coming together to make your eCommerce storefront run smoothly. The end result is a fast, rock-solid and problem-free site that performs exceptionally and, in turn, delivers that slick user experience that your shoppers expect.

Services

Magento Enterprise Platforms

- Magento Experts
- High Performance Computing—GPU Servers

*Subject to data centre availability.

Backup and Disaster Recovery Optimized platforms

Unstoppable IT operations that never skip a beat.

In today's unstoppable global economy nothing is more critical than keeping your IT infrastructure running around the clock. But how do you manage increasing amounts of data distributed over multiple disparate systems to meet your data residency, retention and compliance obligations? Or bring your critical data and applications back online quickly in the event of a disaster, in a way that cuts through complexity and internal resource and budget constraints? One way is through our comprehensive suite of backup and disaster recovery platforms, which releases your IT people, energy and resources from administrating daily backup jobs to focusing on innovation and growth.

Services

- Disk Backup
- Offsite Tape Archival
- Tailored Disaster Recovery Solutions
